

## STANDARD TRIUMPH SURVIVOR DISPLAY RULES & GUIDANCE

### What is a Standard Triumph Survivor?

A survivor is a car which is substantially original and unrestored from when it left the factory (e.g. original panels, paint, interior, engine etc) and the display will give members and the public an opportunity to see close up Triumphs and derivatives that have survived the ravages of time and have avoided restoration, some for over 50 years!

Why are there so few Triumph 'survivors' around? Our cars started rusting from the day they drove off out of the showroom; some even started rusting before they left the factory! Many original unrestored Triumphs have been restored over the years and original cars made the perfect basis for a restoration in an endless pursuit of cosmetic perfection. However, times have changed and like classic works of art or antique furniture original unrestored cars are now being appreciated for the place in motoring history they occupy.

### Outline of the event
