## Classic Car Festival

The largest display of classic  
Triumph cars in the UK

Friday 29th June - Sunday 1st July 2018

Lincolnshire Showground

# INTRODUCTION & WELCOME

Graham Robson, Motoring Historian and Honorary President  
of the TR Register and Club Triumph.

First all, on behalf of the TR Register, a very warm welcome to every car enthusiast who will be attending this massive TR International Weekend with Pistons in the Park. For the entire organising team, I think I can promise you the largest, the most varied, and the ambitious show we have ever offered.

As usual, of course, we aim to make this an extremely friendly TR Register International Weekend, for we think we have catered for everyone in their own preferred way - not least on the Friday evening, when free beer and wine will be on offer in the Bar Marquee, but because of the sheer variety of what will follow on Saturday and Sunday.

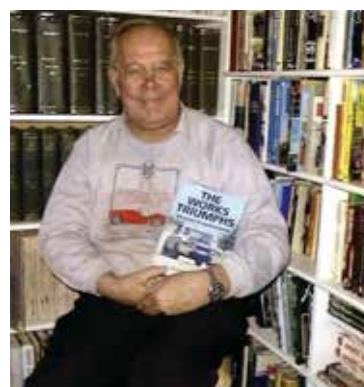

Right away, however, I want to emphasise that this weekend will welcome several shows, all rolled into one, for on Sunday there will also be the added attraction of the Standard-Triumph Marque day (where individual Standard and Triumph clubs will display cars of all types, shapes, sizes and colours). Not only that, but there will also be the 'Pistons in the Park' show where you will see everything from Ferraris, Lamborghinis and Porsches to micro-bubble cars, and perhaps a dash of militaria too. Several local car clubs have also agreed to attend, to add to the size, the colour, and the sheer variety of our largest-ever event.

We are happy to acknowledge that all this has been arranged with the generous and tireless support of the leading Triumph parts supply specialists Rimmer Brothers, who premises are, of course, based on the outskirts of Lincoln itself. Rimmers, we know, will be happy to welcome any customers who can find time to drag themselves away from the showground on the Friday and Saturday.

To give you a summary all the events, which we have arranged, please read the Timetable elsewhere within this programme. Much of the noise and excitement on both days will centre around the main Duckhams Arena, where the traditional classic car parades, exhibitions and interviews will take place - which will keep Yours Truly and Wayne Scott very busy on the microphones. We will, of course, have an Overseas Visitors' parade around the grounds on the Saturday, and the Autosolo, will also take place over the weekend.

The display and judging of the Concours and Pride of Ownership competitions will take place during the weekend, and the announcement of results of this high-profile competition will bring the weekend to a truly sparkling conclusion, with a high-profile prize giving where we will of course thank Meguiars for their generous support.

Trade stands will sell everything from a chassis frame to a badge, the chance to buy TR-themed clothing, food, drink and refreshments of every type, and plenty of time for you to meet up with old friends. So, once again I'm looking forward to greeting many of you - Welcome, and do enjoy yourselves.

## Want to put your driving to the test?

For the first time there will be the option to drive your car on a tarmac course within the Showground to try and set the best time and compete with a range of other vehicles.

The intricate course lasting around a minute will be a great test of your car handling ability where skill and quick learning will have far more to play than outright power.

**You will get 3 runs, an un-timed sighting lap to learn the course and 2 timed hot laps to set your best time. All your runs must be taken within your chosen time slot. There will be a trophy for the fastest times in a range of classes.**

### ENTRY REQUIREMENTS

The driver must hold a full, valid UK driving licence.  
The car must be UK road legal, with a valid MOT certificate.  
The driver must be sober, coherent and respectful.

The car must be safe for driver and spectators, as decided by the Chief Scrutineer.

Please note, this is motorsport aimed at road going vehicles and as such roll cages, helmets, fire extinguishers and other safety devices are NOT required or expected; but can be used.

### CAR PARKING AND DRIVING

No car movements will be allowed within the campsite area between 10.00pm and 08.00am. This will be strictly enforced by site security. There is a dedicated parking area within the showground where late arrivals can park until the morning.

Site security will enforce the speed limit of 10 mph throughout the site.

A one-way system will be in operation within the showground to protect the safety of all pedestrians. Please follow the signs.

Note too that the whole Showground area is a place to which some Road Traffic Laws apply, particularly those concerning the consumption of alcohol and driving.

### CAMPING

All campers are expected to behave in a sensible and responsible manner and show due consideration for other campers and showground neighbours at all times, particularly in respect of night time noise.

#### Please note that:

1. Dogs are welcome throughout the showground providing they are kept on a lead and owners clear up any mess they create.
2. Barbecues and dedicated fire pits can be used PROVIDING they are on legs and not on the grass. Disposable barbecues are strictly forbidden due to the fire risk and site security will immediately confiscate any found and extinguish them.
3. Small gas/gas stoves are fine providing they are not on the ground, but large propane cylinders are not allowed.
4. No LPG or Gas Barbecues allowed on site.
5. Fire represents a very real hazard to campsites and so for safety reasons tents should not be pitched close together. It is a health & safety requirement and condition of entry that tents should be spaced at least 3 metres apart. There is plenty of room. Fire and Site Safety marshals will ensure the 3 metres space is maintained and

will be available to provide advise if required.

6. The use of fireworks and Chinese lanterns is strictly forbidden.
7. The camping area will be available from 14.00 on Friday 29th June until 21.00 on Sunday 1st July.
8. Please note that while normal tent pegs are fine, groups should not use long metal stakes in the camping area as there are buried cables in some places.

# Concours d'Elegance

Pride of Ownership and Triumph Survivors 2018

## TR REGISTER INTERNATIONAL WEEKEND WITH PISTONS IN THE PARK

incorporating the

**STANDARD TRIUMPH MARQUE WEEKEND:  
SATURDAY 30th JUNE - SUNDAY 1ST JULY 2018**

Concours D'Elegance cars are the creme de la creme of classic cars and represent the very best examples of the respective marques in the world. The various classes are highly competitive but a lot of fun is had by the entrants.

You can enter at the show, up to 12pm (midday) on the Saturday however, and without exception, entries will not be accepted after this time. Standard Triumph Marque Day owners that wish to enter a car into the Concours, Pride of Ownership or Triumph Survivors are to ensure their car is entered in advance on-line or on the day and in place by 12pm (midday) on Saturday 30 June.

If you have entered in advance via the on-line entry form please register at the Epic Centre East Hall as soon as possible on the Saturday as this will take a little time.

### Concours Hall Access

The Concours Hall will be open on Friday 3pm to 6pm, Saturday between 9am and 6pm and Sunday 9am to 4 pm. Due to limited space in the hall, once Concours entries are positioned movement of cars will be limited until the awards presentation on Sunday. Cars will be secured in the East Hall overnight on Friday and Saturday.

### Judging and Awards Ceremony

Judging will take place between 3pm and 6pm on Saturday. Judging may last up to 30 minutes and hoods, Surrey tops and sidescreens are to be erected/fitted and the spare wheel is to be removed before judging. You may be asked to stow the hood/ Surrey section or remove the sidescreens during judging.

The awards presentation will take place on the grassed outside area to the rear of the Epic Centre from 3pm on Sunday (with a wet weather contingency in place); this will allow greater participation by members, the public and celebration of award winners.

Such a fascinating mix and variety of cars deserves to be brought together to celebrate its vast history, variety and common lineage.

We will be welcoming all clubs across the Standard Triumph community who, twice a year gather together as part of the Standard Triumph Forum of clubs, an informal organisation that aims to promote closer relationships between the Standard Triumph owners clubs and to organise joint events such as the Standard Triumph Marque Day. Each member club will be displaying their clubs vehicles alongside their individual gazebos and display stands with club officials on hand to share their passion for their models with others from the Standard Triumph community. We are greatly looking forward to seeing such a vast array of cars in one place not only at this weekend but at others in the future.

### Standard Triumph Marque Day | Sunday 1st July

The TR Register is thrilled to be hosting the Standard Triumph Marque Day on Sunday 1st July as part of our International Weekend celebrations. The combination of these two events is set to be the largest gathering of Standard Triumph Motor cars in the UK.

We are incredibly lucky that the Standard Triumph Marque includes a whole variety of different types of vehicle. From small sports cars such as the Spitfire, Herald and GT6 to big saloons like 2.5 /2000. From commercial vehicles like the Herald based Courier van, grand tourers like the Stag to hairy chested performance sports cars from the TR range and small saloons like the Dolomites, Acclaim and Toledo. Then there are the Standard Vanguards, Triumph Roadsters, Mayflowers and the pre-war grandeur of the Gloria, pre-war Dolomites and saloons – the Standard Triumph marque has it all.

### Triumph Survivor Display: A Display of Original Unrestored Triumphs and Derivatives

So what is a Triumph 'survivor'? A survivor is a car which is substantially original and unrestored from when it left the factory (e.g. original panels, paint, interior, engine etc) and the display will give members and the public an opportunity to see close-up Triumphs and derivatives that have survived the ravages of time and have avoided restoration, some for over 50 years!

Why are there so few Triumph 'survivors' around? Our cars started rusting from the day they drove off out of the showroom; some even started rusting before they left the factory! Many original unrestored Triumphs have been restored over the years and original cars made the perfect basis for a restoration in an endless pursuit of cosmetic perfection. However, times have changed and like classic works of art or antique furniture original unrestored cars are now being appreciated for the place in motoring history they occupy.

Whilst cars are not being formally judged and you are not competing with other owners, cars are being considered for an award against original factory standards i.e. the annual 'Triumph Survivor Cup' for the survivor considered the best of the display and two runners up will receive an award.

Bob Tullius' team, Group 44, celebrated nearly 300 overall victories while competing in three of the toughest road racing series in America: SCCA Club Racing, IMSA GTP endurance events and SCCA Trans-Am pro contests. *Please note in the case of poor weather this session will be held in one of the lecture theatres.
